# MASONITE

Masonite is built on a nearly 100-year history of innovation and sustainability. We proudly manufacture our doors using renewable natural resources to be better stewards of our planet. We thoughtfully design our selection and purchase processes to provide a best-in-class customer experience. We strive to deliver on these promises - every time.

We are on a mission to make life better as we elevate the “everyday door” into something extraordinary. We create beautiful, durable exterior and interior Doors That Do More™ in a curated portfolio that fulfills human needs for comfort, safety, security, and convenience so that people can rest, learn, work, and live more comfortably.

As we enter our next century, we will continue to ask what more can our doors do to make life better.

\*Thinner outer style will not affect functionality.

\*\*Not for use with double doors.

Note: 48", 60" and 72" bifolds are achieved by doubled 24", 30" and 36" bifolds.

Molded Panel Doors Notes: Please note that some sizes are only available as a result of being trimmed from a larger facing. The trimming process may result in a stile width that is too narrow to accommodate a standard bore. To machine a standard bore with a 2-3/8" backset on the lock hole and a 2-1/8" diameter bore, the outer stile measurements must be no less than 3-7/16" wide. Many facings have a lockrail that will accommodate a standard bore even when the stile width is too narrow. Please refer to Masonite Molded Door Facing Dimensional Specifications to verify the outer stile measurements or contact your Masonite Interior Door servicing plant. Textured refers to embossed wood-grain. Pre-finished white is available as textured only. Not all molded panel designs and sizes are available in all regions as stock products. Please check for special order availability.

All doors available with fire rating.
