TMUN5000 sliding doors in Quarter Sawn White Oak with Grey Mist finish, Square Stick (SS) sticking and Clear glass.

Premium Architectural Doors

There was a time when doors were appreciated for their architectural value, gracing the openings of homes and embodying the principles of their design periods.

At TruStile, we miss those days. We are committed to partnering with architects, home builders and homeowners, to revive the rich tradition of building high quality, architecturally correct doors with a range of customization options to fit your preferences and your home's unique character.

Visualize the TruStile® Difference

All too often, doors are an overlooked design element — even in high-end custom homes that include an otherwise impressive selection of amenities and upgrades.

Other manufacturers have focused on value-engineering doors, thus diminishing their structural and design integrity. However, the visual impact of high-quality architectural doors is dramatic.

BEFORE

AFTER

TS2060 in MDF with Cove (CV) applied moulding and Flat (C) panel

The Architecturally Correct Door

TruStile doors are built with solid construction, engineered to last. We wouldn't think of stamping out a hollow core door. Each TruStile door is made to order with perfectly proportioned components, created individually to ensure that every door is architecturally correct, regardless of size.

All Doors Are Not Created Equal.

The figure illustrates the timeless advantage of TruStile's authentic stile and rail construction. All door components can be customized and combined to create the style you desire, while the construction method gives each door crisp, architecturally correct lines.

TruStile Selection Guide

5 Steps to Designing Your Perfect Door

To guide your style choices, consider the recommendations in the Architectural Styles section on page 11.

TS5080 pocket door in Plain Sawn White Oak with Grey Mist finish, Square Stick (SS) sticking and Dash glass

1

Door Style

Choose from over 500 door styles to match your home's architecture.

2

Material

Select MDF for painted applications or choose from 20 wood species.

3

Profile Options

Refine your design with the widest selection of profile options to match your desired style.

4

Decorative Inserts

Consider exchanging a panel for a unique material insert—glass, resin, leather or metal.

5

Design Options

Further customize your doors with unique options such as a barn door or common arch pair.

See page 78 for more ideas.

Find Your Architectural Style

Where do you begin to choose the right door design for your home? TruStile's Authentic Designs® makes the selection process fun and easy. With a range of materials and options for 12 popular architectural styles, TruStile provides the widest range of on the market today.

Read on and be inspired with just a few of our tantalizing options for distinctive, remarkable doors.

ART DECO

An eclectic style decorated with geometric shapes and accents of metal and glass.

- The Art Deco design style began after WWI and flourished in the 1930s and 1940s, waning after WWII.
- While there are no distinct guiding design principles of Art Deco, there are stylistic elements connected by common themes: the decorative, the commercial, the fashionable and the symbolic.
- The TruStile Art Deco door styles combine modern European design ideas introduced in France with the romance of 1930s Hollywood.

COLONIAL

An authentically American style characterized by stately, historic design features.

- A variety of architectural styles developed throughout the 18th and 19th centuries as the English, Dutch, Germans and French settled in America.
- Characterized by symmetry and balance, formal surface design and ornamentation with special attention to doors and windows.
- Authentic TruStile doors from the Colonial collection provide classic grace and elegance along with an early American sensibility.

CONTEMPORARY

A forward-looking style that is uniquely yours.

- Contemporary architecture reflects the current building style of today.
- Characteristics of contemporary homes are unique or odd shaped frames, open floor plans, oversized windows, connected indoor and outdoor spaces and warm interiors.
- TruStile's Contemporary series is an eclectic collection that borrows ideas from different eras. Popular elements are clean lines and the use of natural, sustainable materials.

COTTAGE

A comfortable style that reflects architectural simplicity.

- The American cottage style of architecture was inspired by the English countryside and features a cozy, almost storybook character.
- Characteristics include steep roofs, arched doors and casement windows. A variety of natural materials can be used ranging from wood siding, stone, shingles and copper.
- TruStile's Cottage series represents historically accurate door styles in both panel and glass configurations, as well as updated interpretations of the historic designs.

CRAFTSMAN

A simple style focused on natural materials and an attention to period details.

- The American Craftsman style emerged from the English Arts & Crafts movement of the late 1800s and was a reaction to the overly decorative Victorian era and a rejection of mechanization.
- Emphasizes simplicity of form, originality and local natural materials.
- Simplicity and quality workmanship define the TruStile Craftsman door collection.

FRENCH COUNTRY

An eclectic yet decidedly French style that evokes classic European appeal.

- From elaborate Ecole-des-Beaux-Arts inspired Chateaux to stunning estates in Provence, the French Country style includes decorative detailing, organic floral patterns, distressed woodwork and the use of both subdued and vibrant tones.
- Whether your tastes lean toward the formal Chateau style or the relaxed provincial style, TruStile's French Country series will take your design sensibilities back to the high style of French art and architecture.

MEDITERRANEAN

An enduring trend in American architecture and interior design that expresses a Tuscan sensibility.

- Inspired by the Italian Renaissance, Mediterranean designs appeared in American architecture between the late 1800s and early 1900s. This movement drew heavily on Italian palaces and seaside or country villas.
- Mediterranean details include arched windows and doorways, recessed entryways, red tiled roofs and stuccoed walls.
- TruStile's Mediterranean collection brings the richness and charm of Italian living to your home.

MODERN

Clean strong lines. Bold accents.
Custom design options.

- Early Modern architecture took root in the U.S. in the 1920s and reached its peak in the mid 20th century.
- Characterized by simplification of form, an absence of ornate detail and a belief that “less is more”. Modern style has streamlined horizontal lines and uses industrial materials such as concrete, steel and glass.
- TruStile’s Modern Door Collection is centered around crisp, stacked rails, clean strong lines, oversized stiles, custom design options and bold accents.

SPANISH COLONIAL

A warm style that exudes a sophisticated design with ornate touches.

- The Spanish Colonial style of architecture was popular in the early 20th century and was embraced in both Florida and California, as well as the southwestern U.S.
- This style is characterized by smooth stucco walls, low pitched roofs, arched entryways and small porches or balconies.
- TruStile's Spanish Colonial series showcases doors with simple lines associated with today's Mission-inspired architecture as well as decorative Spanish Revival door designs.

TRADITIONAL

Traditional design often reflects the common sense principles of practicality and functionality.

- Broadly defined, Traditional or vernacular architecture is viewed as a conservative way of building homes to retain the style and beauty of a particular community based on the localized design and historic context.
- On the East Coast, this style is most often associated with Cape Cod, Shingle or Americana styles, while in the Western U.S. the American Ranch style is predominant.
- TruStile's Traditional series reflects the classic and historic design ideas of an earlier time and place.

TUDOR

Tudor architecture reflects a return to a more conservative and formal aesthetic.

- The Tudor period was a distinct part of the Revivalist period in architectural history.
- The Tudor home features steeply pitched gabled roofs, high chimneys, tall mullioned windows and half-timbering.
- Inspired by English manor homes, the TruStile Tudor series features an assortment of elegant designs and gentle arches.

VICTORIAN

Where unconventional ideas took root and elaborate styles came to light.

- The Victorian era of architecture reigned from the 1830s until the beginning of the 20th century and was known as a period of romanticism.
- Ornamentation such as gingerbread detailing or Victorian lace is frequently used. Roof lines tend to be accented with hipped gables, towers and dormers.
- The ornate nature of the TruStile Victorian door line effectively reproduces this historic time period within your home.

Material Options

Like furnishings and décor, doors should complement your home's unique architecture and individual style. TruStile Doors provide you with ultimate flexibility, offering unique material options including accents of metal, glass, resin and leather; common arch pairs and built-in mirrors — just to name a few.

TruStile MDF Doors

TruStile MDF Doors provide quality that is unrivalled. Our use of super-refined MDF and meticulous construction methods result in a painted door product that is a cut above the rest.

IDEAL FOR PAINTED APPLICATIONS

- Made to order and built to any size and style.
- Built with genuine stile and rail construction — never routed or stamped.
- Made with solid, super-refined MDF that provides a smoother painting surface than pine, poplar or lower-grade MDF alternatives.
- MDF is more stable than natural wood and less susceptible to movement and warping.
- More affordable than wood doors.
- Third party certified by Scientific Certification Systems to contain 69% recycled content, making them ideal for green building.

HARDWOOD WEDGE EDGE SYSTEM

TruStile MDF doors come standard with The Wedge,[®] our field-proven hardwood edge system. Designed to stand up to daily use, The Wedge provides superior rigidity, stability and screw-holding power.

Pair of TS6110 Doors in MDF with Roman Ogee (OG) sticking and Flat (C) panel

TruStile Reserve™ Wood Doors

Designed to the highest level of quality, TruStile Reserve Wood Doors are constructed using the latest technological advances combined with meticulous hand craftsmanship.

THE ULTIMATE IN WOOD DOORS

- The TruStile Reserve series incorporates only the finest materials and construction methods.
- Engineered panel made with a composite core for strength and stability while maintaining the look of a solid wood panel construction.
- Precision-cut cope and stick joinery for a meticulous, uncompromising look.
- The strength and durability of LSL is employed for the ultimate in stiffness to resist bowing, twisting or warping.

EXCEPTIONAL HAND-MATCHED VENEERS

TruStile created a proprietary color matching and grading system to ensure only the best veneers and lumber are used to handcraft your door. Based on the AWI AA Premium Grade standard, but taken a step further, TruStile Reserve Doors are unmatched in beauty.

TS3000 in Mahogany with Espresso finish, Linea (LN) applied moulding and Flat (C) panel

TruStile Wood Doors

Made in the authentic stile and rail manner, TruStile Wood Doors use a premium mix of materials that exceed industry standards for a truly natural look.

Color matching that exceeds industry standards

Edge-glued solid panel

Stave lumber core

Dowel joinery

SOLID WOOD QUALITY & DETAIL

- Parts are tested and sorted into a premium mix of components that exceed industry standards. All components are blended for color and grain pattern matching.
- Edge-glued solid wood panels for a premium look and feel.
- Traditional dowel construction enhances strength and durability.
- An engineered stave lumber core is cut to size with alternating grain patterns, which balances the core and reduces wood's natural tendency to move.

FLOATING PANEL SYSTEM

TruStile doors are engineered with a unique floating panel system that utilizes flexible cushions to allow expansion and contraction while securing the panel to prevent shifting, settling and rattling.

TS3010 in Cherry with Roman Ogee (OG) sticking and Raised (A) panel

Wood Species

TruStile offers the broadest selection of wood species on the market. Choose from our standard selections below, or custom order virtually any species. All of our standard wood species are available FSC® certified which ensures responsible forestry.

VG1000 in Select Alder with Cinnamon stain and Rustic Antiquing package.

Factory Pre-Finishing

TruStile offers a premium finishing capability that accentuates the natural beauty of our doors. Our exclusive process combines hand-wiped stains with a catalytic conversion varnish that results in an exceptionally beautiful finish luster.

Factory Pre-Hanging

Like our doors, TruStile's pre-hung units are built using premium construction techniques. Available as either pre-hung units or knock-down jambs, TruStile can supply any width and any species for any size door.

Available Hinge Finishes

Edelman® Leather

Substitute any panel with the finest Edelman leather. Select either a laminated or upholstered appearance for your leather panels.

Design that Complements the Planet

Our modern, domestic plants use lean manufacturing practices to make extremely efficient use of our raw materials. This minimizes waste and environmental impact.

69% Recycled MDF Doors for Painted Applications

TruStile MDF doors are not only the highest quality paintable doors on the market, they are also the responsible environmental choice. We recycle MDF waste, donating it to agricultural partners who use it to create energy, reducing both landfill waste by 65% and waste pick ups, putting fewer trucks on the road. The green benefits of our MDF doors include:

- Certified by SCS Global Services to be constructed of 69% recycled content.
- Eligible for up to three LEED® credits
- Manufactured with low-emitting adhesives and coated with low-emitting primer.
- Standard MDF is low emitting, meeting CARB (California Air Resources Board) requirements.
- A no-added formaldehyde MDF option is also available.

FSC® Certified Wood Doors for Stained Applications

Most TruStile wood doors are available with FSC certification. FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. The green benefits of our FSC certified wood doors include:

- Third-party certification that all door materials originate from responsible sources.
- 100% of door value contributes towards the LEED credit for Certified Wood Products.
- Manufactured with low-emitting adhesives.
- Green-certified doors contain the same high-quality construction and materials as our standard product.

Use TruStile on Your Next LEED® Certified Project

The LEED® (Leadership in Energy and Environmental Design) Green Building Rating System is a national standard developed and published by the U.S. Green Building Council (USGBC). Its purpose is to promote sustainable building that is environmentally responsible, profitable and healthy. TruStile doors also qualify for other green building rating systems. Contact us for details.

TruStile Doors help achieve LEED credits in the following categories for new commercial construction and major renovation projects¹:

LEED credit	LEED criteria	Detailed requirement	TruStile MDF	TruStile Wood
Materials & Resources				
4.1 (1 point)	Recycled content: 10% (post-consumer + ½ pre-consumer)	Use materials with recycled content such that the sum of post-consumer recycled content plus ½ of the pre-consumer content constitutes at least 10%, based on cost, of the total value of the materials in the project.	Qualify – SCS certified to contain minimum 69% recycled content	Not eligible
4.2 (1 point)	Recycled content: 20% (post-consumer + ½ pre-consumer)	Use materials with recycled content such that the sum of post-consumer recycled content plus ½ of the pre-consumer content constitutes at least 20%, based on cost, of the total value of the materials in the project.	Qualify – SCS certified to contain minimum 69% recycled content	Not eligible
7 (1 point)	Certified wood	Use a minimum of 50%, based on cost of wood-based materials and products that are certified in accordance with the Forest Stewardship Council's (FSC) principles and criteria for wood building components.	Not eligible	Qualify – specify FSC Certified Wood Door 100% of door value counts toward credit
Indoor Environmental Quality				
4.4 (1 point)	Low-emitting materials: Composite wood and agrifiber products	Composite wood and agrifiber products used on the interior of the building must contain no added urea-formaldehyde resins.	Qualify – specify ULEF or NAF MDF	Qualify – specify ULEF or NAF MDF panel core

TruStile Doors help achieve LEED credits in the following categories for residential home construction projects²:

LEED credit	LEED criteria	Detailed requirement	TruStile MDF	TruStile Wood
Materials & Resources				
2.2 (0.5 points for doors)	Environmentally preferable products	Use building component materials that are environmentally preferable in that they either contain minimum of 50% post industrial recycled content, are FSC certified or reclaimed. Our Fire Doors are as Stylish as They are Safe

Designed to match non-rated doors, all TruStile fire doors feature full panel relief and are carefully engineered to complement our non-rated doors.

20-minute fire-rated TS3070 in MDF

Matched Dimensions

Stile and rail dimensions can be matched between standard and fire rated doors.

60 MINUTE FIRE DOOR NON RATED DOOR

Profiles on fire-rated doors have true depth and definition, not plant on mouldings.

Non-rated TS3070 in MDF

Certified Fire Door Ratings

Throw away the preconception that you have limited design options for fire-rated openings. With most of our standard panel doors available in up to 90-minute ratings, you never have to sacrifice style when selecting 20- through 90-minute fire doors.

	20-minute MDF	20-minute Wood	45- and 60-minute MDF/Wood	90-minute MDF/Wood
Category	Category A Category B Neutral Pressure	Category A Category B Neutral Pressure	Category A Category B	Category A Category B
Thickness	1¾" minimum	1¾" minimum	1¾" minimum	1¾" minimum
Maximum width single	4'0"	4'0"	3'6"	3'6"
Maximum width pair	8'0"	8'0"	7'0"	7'0"
Maximum height	8'0"	8'0"	8'0"	8'0"
Fire Glass max. area	3,145 sq. inches	3,145 sq. inches	1,248 sq. inches – 45 minutes 1,216 sq. inches – 60 minutes	1,216 sq. inches
Standards	ASTM E-152, NFPA 80, NFPA 252, UL10B, UL10C			

¹ Some door styles and panel profiles are not available in all fire ratings. Verify availability with TruStile.

² Some ratings require metal vision kits.

TS4100 in Maple with fire-rated glass

Fire-Rated Glass Doors Also Available

Glass doors are the perfect solution for spaces where a fire door is required by code, but the look of a glass door is preferred. Select from over 120 fire-rated glass doors with any of our standard sticking profiles.

Refer to the fire rated symbol  in the Door Collections section to see which glass door designs are available in 20 , 45 , 60- and 90 minute fire ratings.

Hose stream approved glass can also be specified.

Superior Sound Performance

Noise is an inescapable component of life in the modern home. Because of their weight, solid construction and high density, TruStile doors are the ideal solution to sound proofing a home.

Keep Private Conversations Private

Home theater featuring TS3070 in Mahogany with custom porthole window

Sound Transmission Class (STC) Ratings

TruStile has tested its sound doors in operable openings with Zero International sound gasketing packages.

STC Rating	Door Material	Door Styles	Door Thickness	Primary Seal	Secondary Seal	Threshold Saddle	Sweep
Zero International hardware used							
39	MDF & Wood	45- & 60-Minute Fire Door	2-1/4"	#475	#119	#564	#367
38	MDF	90-Minute Fire Door	1-3/4"	#188FS	#118B	Flat Surface	#369
34	MDF	TS5XXX through TS9XXX	1-3/4"	#475	#119	#564	#367
33	MDF	TS1XXX through TS4XXX	1-3/4"	#475	#119	#564	#367
32	MDF	TS5XXX through TS9XXX	1-3/4"	#475	None	#564	None
32	Wood	TS1XXX through TS4XXX	1-3/4"	#475	#119	#564	#367
30	MDF	TS1XXX through TS4XXX	1-3/4"	#475	None	#564	None
30	Wood	TS5XXX through TS9XXX	1-3/4"	#475	#119	#564	#367
30	Wood	TS1XXX through TS4XXX	1-3/4"	#475	None	#564	None

Sound Transmission Class (STC) Examples

TruStile Advantage	STC	Performance	Description
	50 – 60	Excellent	Loud sounds heard faintly or not at all
	40 – 50	Very Good	Loud speech heard faintly
TruStile Door with Recommended Gasketing	35 – 40	Good	Loud speech heard but hardly intelligible
	30 – 35	Fair	Loud speech understood fairly well
	25 – 30	Poor	Normal speech understood easily and distinctly
Typical Hollow-Core Door	20 – 25	Very Poor	Low speech audible

Sound ratings are classified by an STC (sound transmission class) number that rates a material's ability to resist airborne sound. A higher STC rating blocks more noise from transmitting through a partition like a door. Standard TruStile MDF doors achieve up to a 34 STC rating, some 10- to 15-points better than typical hollow-core doors that achieve a "very poor" rating. For openings requiring even better sound performance, TruStile can provide 60-minute wood and MDF fire doors that achieve up to a 39 STC rating.

NEW

Entry Systems

TruStile Entry Doors has extended the design leadership we pioneered with interior doors to the front entry of the home. We are pleased to bring you more choices, a higher quality product, and a more inspired, easier journey to selecting the ideal entry for your home. Now you can make a statement throughout your whole home.

For more information about TruStile's new entry systems, visit www.trustile.com or request a copy of our *Exceptional Entrance*, entry door catalog.

TruStile entry systems are solely available for residential applications.

The Extensive TruStile Door Collection

Find the ideal design that enhances your home's architectural style and completes its distinctive look.

Pair of FL110 doors in MDF with Roman Ogee (OG) sticking, Raised (A) panel and Clear glass

TS Series Door Collection

Our TruStile (TS) Door Collection features over 100 architecturally-correct panel door styles from one- to nine-panel configurations. Each door is built with genuine stile and rail construction and is never routed or stamped. As a result, our panel - doors have crisp, clean lines and unmatched detail.

Panel Door Profile Options

A door profile refers to the joint where the sticking and panel come together. You can achieve distinct looks by selecting different sticking and panel combinations. With so many combinations to choose from, we're confident you'll find the perfect profile for your project. If not, we can partner with you to create a custom profile.

TM Series Door Collection

The Tru&Modern™ (TM) Door Collection consists of over 100 contemporary door styles. A modern take on classic stile and rail door construction. Clean, strong lines. Custom design options. Bold accents. This collection radically alters the concept of what a door can bring to today's modern and contemporary interiors.

TM13000 in MDF with 1/4" Kerf Cut reveal

TM Series Door Styles

Modern Adaptation Door Styles

Profile Options

TM Series modern adaptation designs are available with two profile options to frame the desired insert:

Square Stick (SS) Compression Fit

Compression fitting not available for leather inserts. Glass can not be replaced on compression fit doors.

Square Stick (SS) Sash

Square Stick sash not available on MDF or wood used as a panel insert. Use One Step (OS) sticking to match Square Stick (SS) sash around wood inserts.

Note: Door styles are shown with the new modern wide stile. Shaded panels indicate an insert option: leather, metal, glass, resin or a flat mdf or wood panel.

TMF1000 flush door in Mahogany with Ebony stain

TMF Series Flush Door Collection

All other flush doors just don't deliver the refinement required for today's modern interior. TruStile flush wood doors feature 1/16" thick hand selected veneers, precision matched to optimize the beautiful character found across each species of natural wood.

- Hand-matched 1/16" veneers are available in both horizontal and vertical grain.
- A highly engineered core provides stability for the door while the matching hardwood edge provides a beautiful finish.
- Made to order in sizes up to 4' x 10'.
- Available in over 15 standard species as well as paint-grade MDF.

Extremely stable engineered core

Ultra-smooth HDF layer

Matching solid hardwood band

Hand-matched 1/16" veneers available with horizontal and vertical grain

TMF1000 in Plain Sawn White Oak and Grey Mist stain

TMF1000 in Mahogany with Ebony stain

A Perfect Match

When hand matching veneers for pairs, TruStile treats the pattern as one extra wide door to ensure the grain looks its best across the width of the pair.

Achieve the Look

Modern is all about distinctive details and they don't stop at the door. TruStile offers a modern jamb system to match the species and finish of your door. Concealed hinges are available with everything fully prepped at the factory.

TMF1000 flush doors in Rift Sawn White Oak with Hazelnut stain

TMF1000 in MDF

MDF Flush Doors

- Highest quality, super-refined MDF creates a smooth paintable surface.
- A highly engineered core provides stability for the door while the patented Wedge Edge® provides a secure mount for hardware.
- Made to order in sizes up to 4' x 10'.

TMF1002 in Walnut and clear coat finish

Sketch Face Doors

TruStile offers two door styles that combine hand-matched vertical and horizontal veneers on the same face. Our new Sketch Face designs can bring a new level of sophistication to your project.

TMF2200 in MDF

Accent on Simplicity

MDF flush doors feature four additional door styles that add subtle flourishes.

TMP Series Plank Door Collection

Create a contemporary version of this ageless design. Vertical planks with our ¼" kerf cut bring rich definition to modern design.
